QUESTION 1

How should an administrator configure backups to have seven days of restore points?

- A. schedule a daily node backup
- B. schedule a daily backup
- C. schedule a weekly backup
- D. schedule a weekly backup for each day of the week

Correct Answer: D

QUESTION 2

Symantec eDiscovery Platform 8.0 provides the capability to tag full "document families".

What is a "document family"?

- A. an email message and all attachments
- B. an email message and all associated replies and forwarded messages
- C. a group of documents that are similar
- D. a group of documents that have the same hash value

Correct Answer: A

QUESTION 3

What is the most efficient way to find documents that are unable to be searched in the Filters pane?

- A. Document Size - 0KB
- B. File Type - Other Types
- C. Message Flag - crawler truncated
- D. File Flag - No content found

Correct Answer: D

QUESTION 4

What is an advantage of configuring email digest in Symantec eDiscovery Platform 8.0?

- A. custodian notices can be sent automatically by email in response to an event

- B. custodian emails can be forwarded automatically to an email address
- C. custodian changes can be sent automatically to an email address
- D. unconfirmed custodian notices can be automatically escalated to a manager

Correct Answer: C

QUESTION 5

A Case Team needs to determine whether to enable Symantec eDiscovery Platform 8.0 to extract images from emails and files.

Which two considerations should influence the Case Team's decisions? (Select two.)

- A. extracting images can expand the attachment list during review and export
- B. if image extraction is disabled, images are unavailable for viewing
- C. no indication of whether there are images in a document is given, so extracting images is an essential step to ensure they will be reviewed
- D. extracting images is supported for email only
- E. extracting images enables users to apply OCR to the images, thus generating text and making the images searchable

Correct Answer: AE

QUESTION 6

What is the proper format for the SharePoint path when setting up a SharePoint Source?

- A. //Servername/SiteName
- B. //192.168.1.100/SiteName/
- C. http://Servername/SiteName
- D. http://SiteName/default.aspx

Correct Answer: C

QUESTION 7

What is the purpose of the Symantec eDiscovery Platform 8.0 Automation Rules feature?

- A. to automate the processing of data after collection
- B. to automate repetitive review tasks

- C. to automate the production of data
- D. to automate the escalation of Legal Holds

Correct Answer: B

QUESTION 8

An administrator has been notified that additional data has been gathered for a case. The loose electronic documents are organized by custodian and have been copied into a source folder which contains data that has been processed.

How can an administrator add the new data to the case?

- A. re-run post-processing on the source
- B. create a new Case Folder Source pointing to the new data
- C. run Discovery against the existing folder to identify the newly added data
- D. collect the new data and process as a new Collection Set

Correct Answer: C

QUESTION 9

Refer to the exhibit.

Collection Rights	<input checked="" type="checkbox"/> Allow collections access
	<input type="checkbox"/> Data map management
	<input type="checkbox"/> Collections management
	<input type="checkbox"/> Clearwell collection sets management
Legal Holds Rights	<input checked="" type="checkbox"/> Allow Legal Hold access
	<input checked="" type="checkbox"/> Legal Hold management

Which collections and legal hold capabilities will users assigned to the customized user role shown in the exhibit have?

- A. Case User access to collections and case manager access to legal holds
- B. Case Admin access to collections and case manager access to legal holds
- C. no access to collections but read access and write access to legal holds
- D. read-only access to collections and full access to legal holds

Correct Answer: D

QUESTION 10

What is the difference between an 'Invalid Case' and a 'Recoverable Case'?

- A. Invalid Case means the case integrity is compromised and must be restored and Recoverable Case means a minor error occurred
- B. both statuses indicate the case is unavailable for processing
- C. recoverable Case means the case is currently being backed up and Invalid Case means case is available for processing
- D. both Invalid Case and Recoverable Case indicate the case is offline

Correct Answer: A

QUESTION 11

A legal team wants to perform a search that identifies the term "contract" in the subject field of a message except when the word "concluded" is also in the subject field.

Which query will provide the desired result?
